An *Asterisk* (*) indicates that the instructions immediately following are to be repeated the given number of times, in addition to the original. Thus "repeat from * 3 times" means to make 4 times in all.

The ** and † are used in the same way.

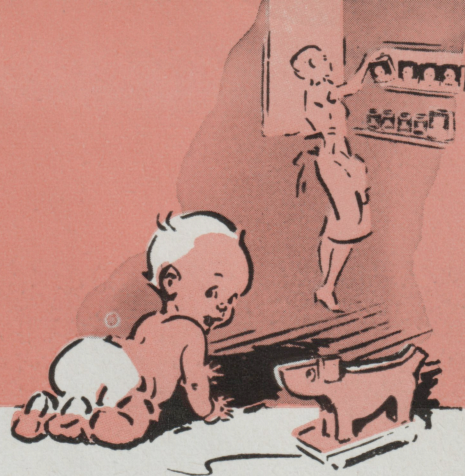

Even means that a row is to be worked without either increase or decrease.

Work means to continue in the stitch which has been described.

Mrs. Dan Gerber, mother of five, whose second child was the inspiration for Gerber's Baby Foods.

One Mother to Another ...

As a mother myself, I know how important it is to know the foods you select for baby. So it is a pleasure to assure you that the various Gerber's Baby Foods were prepared originally for my own babies. And these special foods for babies have been shared with millions of American babies since their introduction 17 years ago.

Gerber's Strained Foods are made from high-quality vegetables carefully washed in pure, artesian well water, then cooked the Gerber way by steam to retain precious minerals and vitamins. These foods for babies have the same smooth texture throughout, and are made to taste extra good. There are 15 varieties of Strained Foods for all, including our ready-to-serve custard made from milk and eggs. This is a great favorite with mothers, for it makes a wonderful dessert for babies of all ages.

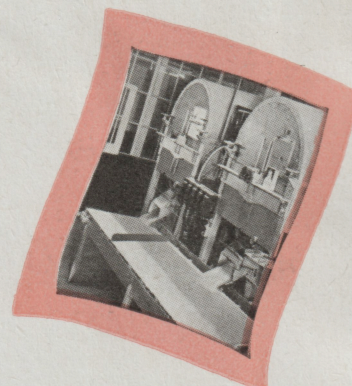

There are 8 Gerber's Chopped Foods made from the same high-quality ingredients for older babies who have developed their first molar teeth, and who can chew a little. All Gerber's Foods are carefully prepared by trained nutritionists and are laboratory-checked at every step.

The two baby cereals, Gerber's Cereal Food and Gerber's Strained Oatmeal, were developed with the help of infant nutrition specialists and doctors. Both cereals contain added iron and Vitamin B1. Babies are born with a supply of iron gathered from their mothers during the prenatal period, but this supply of precious iron often runs low after three months or more. Two feedings a day of these cereals does much to help baby restore the much needed iron. Both cereals are ready-to-serve -- simply add hot or cold milk, or formula.

You might be interested in two helpful booklets on baby care. They are fully described below.
